This guide introduces important safety rules and usage instructions. Before any maintenance operations, absolutely and conscientiously read the guidelines. In any case the tool has to be opened by people not trained at the risk of breaking the guarantee.

Warning – When this symbol is displayed, safety measures are indicated to avoid possible dangers and damage.

Information – When this symbol is displayed, instructions for use are given for effective handling of the tool.

SAVE THIS INSTRUCTION MANUAL consultation, training and transmission to any new user.

SAFETY INSTRUCTIONS

WARNING - Read all safety warnings and instructions. Failure to follow warnings and instructions may result in electric shock, fire and / or serious injury.

Keep all warnings and instructions for future reference.

1. SAFETY OF THE WORK AREA

1. Keep the work area clean and well lit. Messy or dark areas are prone to accidents.
2. Do not operate power tools in explosive atmospheres, for example in the presence of flammable liquids, gases or dust. Power tools produce sparks that can ignite dusts or fumes.
3. Keep children and others away while using the tool. Distractions can make you lose control of the tool.

2. SECURITY OF PERSONS

1. Stay alert, watch what you are doing and use common sense in your use of the tool. Do not use a tool while fatigued or under the influence of drugs, alcohol or medication.
A moment of inattention while using a tool can result in serious personal injury.
2. Use safety equipment. Always wear eye protection.
Safety equipment such as dust masks, non-skid safety shoes, helmets or hearing protection used for the proper conditions will reduce personal injury.
3. Do not rush. Keep a suitable position and balance at all times.
This allows better control of the tool in unexpected situations.
4. Dress appropriately. Do not wear loose clothing or jewelry.
Keep hair, clothing and gloves away from moving parts. Loose clothes, jewelry or long hair can be caught in moving parts.

3. USE OF TOOLS OPERATING ON BATTERIES AND USE PRECAUTIONS

1. Only recharge with the charger specified by the manufacturer. A charger that is suitable for one type of battery pack may create a fire hazard when used with another type of battery pack.
2. When a battery pack is not in use, keep it away from other metal objects, such as paper clips, coins, keys, nails, screws, or other small objects that may result in a connection from one terminal to another. Shorting the terminals of a battery between them can cause burns or fire.
3. In bad conditions, liquid can be ejected from the battery; avoid contact. In case of accidental contact, clean with water. If the liquid comes into contact with the eyes, seek additional medical help. Liquid ejected from the batteries may cause irritation or burns.

4. MAINTENANCE

1. Have the tool serviced by a qualified service person using only identical replacement parts. This will ensure the safety of the tool.

GUARANTEE

Alpes DEIS warrants this tool against all defects in material and workmanship for a period defined in the enclosed warranty card. During this period, Alpes DEIS will repair or replace, at its discretion, any defective product at no additional cost to its owner. This warranty does not apply to any defect resulting from an accident, improper use, improper maintenance, or normal wear and tear.

DISPOSAL AND ECOLOGICAL CONCERNS

European Directive WEEE:

(Directive 2012/19/UE on Waste Electrical and Electronic Equipment)

This logo opposite indicates, in European Union, that the tool which you have just acquired must not be thrown with household waste. Indeed to allow the non-proliferation of hazardous materials in nature, the recovery and recycling of this product at the end of life, it is necessary :

- to deposit it in a waste station whose address is to ask the authorities of your city
- or return to your distributor

Thus the materials of this product will be treated to be upgraded and recycled at best for the preservation of natural resources and for the protection of human health. Thank you for your contribution.

For information the financing of the cost of this recycling is financed from the sale.

European Directive ROHS:

(Directive 2011/65/UE on Restriction Of Hazardous Substances of Electrical and Electronic Equipment)

This tool has been designed in compliance with this European directive setting the limits of hazardous substances in electrical and electronic equipment for the purpose of preserving natural resources and protecting human health.

CE REQUIREMENTS

This tool complies to European Directive named « Machines » 2006/42/CE
(transposed into French law by decree n° 2008-1156 du 7 November 2008)

This tool complies to Safety European Directive 2006/95/CE
Mechanical and electrical hazards associated with power tools

- Safety: EN 60 745-1:2006

This tool complies to EMC European Directive 2004/108/CE
Risks on Electromagnetic Compatibility

- Emission standard
 - EN 55014-1:2007 + A1:2009+A2:2012
 - EN 61000-6-3:2007+ A1:2011
- Immunity standard
 - IEC 61000-4-2 :2008
 - IEC 61000-4-3 :2010
 - EN 60335-1:2012 article 19.11.4
 - EN 55014-2:1997 + A1:2002 + A2:2009

This compliance has been done by APAVE laboratory (Lyon)
